Very Important

Somewhat Important

Not very important

Not important at all

Important, but can't do or
no choice

I am going to ask you how important various activities & routines are to you while you are here in this home.

I will ask you to answer using the choices you see on this card; very important, somewhat important, not very important, not important at all, or important, but can't do or no choice.

I'll explain the last answer; if something would be important to you, but because of your health, or what is available here in this NH, you may not be able to do it.
